DEATH OF THE OLD YEAR.

BY TENNYSON.

Full knee-deep lies the Winter snow,
And the Winter winds are wearily sighing:
Toll ye the church bell sad and low,
And tread softly and speak low,
For the old year lies a-dying.
Old year, you must not die;
You came to us so readily,
You lived with us so steadily,
Old year, you shall not die.

He lieth still: he doth not move:
He will not see the dawn of day,
He hath no other life above,
He gave me a friend, and a true, true love,
And the New Year will take 'em away
Old year, you must not go:
So long as you have been with us,
Such joy as you have with us,
Old year you shall not go.

He froth'd his bumpers to the brim;
A jollier year we shall not see,
But tho' his eyes are waxing dim,
And tho' his foes speak ill of him,
He was a friend to me.
Old year, you shall not die;
We did so laugh and cry with you,
I've half a mind to die with you,
Old year, if you must die.

He was full of joke and jest,
But all his merry quibs are o'er,
To see him die across the waste
His son and heir doth ride post-haste;
But he'll be dead before.
Every one for his own.
The night is starry and cold, my friend,
And the New Year blithe and bold, my friend
Comes up to take his own.

How hard he breathes! over the snow
I heard just now the crowing cock.
The shadows flicker to and fro:
The cricket chirps: the light burns low:
'Tis nearly twelve o'clock.
Shake hands, before you die,
Old year, we'll dearly rue for you:
What is it we can do for you?
Speak out before you die.

His face is growing sharp and thin.
Alack! our friend is gone,
Close up his eyes; tie up his chin:
Step from the corpse, let him in
That standeth there alone,
And waiteth at the door.
There's a new foot on the floor, my friend,
And a new face at the door, my friend,
A new face at the door.

THE NEW YEAR.

BY TENNYSON.

Ring out wild bells to the wild sky,
The flying cloud, the frosty light,
The year is dying in the night;
Ring out, wild bells, and let him die.

Ring out the old, ring in the new,
Ring, happy bells, across the snow,
The year is going, let him go;
Ring out the false, ring in the true.

Ring out the grief that saps the mind,
For those that here we see no more;
Ring out the feud of rich and poor,
Ring in redress to all mankind.

Ring out a slowly dying cause,
And ancient forms of party strife;
Ring in the nobler modes of life,
With sweeter manners, purer laws.

Ring out the want, the care, the sin,
The faithless coldness of the times;
Ring out, ring out my mournful rhymes,
But ring the fuller minstrel in.

Ring out false pride in place and blood,
The civic slander and the spite;
Ring in the love of truth and right;
Ring in the common love of good.

Ring out old shapes of foul disease;
Ring out the narrowing lust of gold;
Ring out the thousand wars of old,
Ring in the thousand years of peace.

Ring in the valiant men and free,
The larger heart, the kindlier hand;
Ring out the darkness of the land,
Ring in the Christ that is to be.

Who Mrs. once to take a kiss has Mr. thing he should not Miss.

NUTMEGS.—Nutmegs grow on trees which look like pear trees, and are generally over twenty feet high. The flowers are very much like the lily of the valley. They are pale yellow, and very fragrant. The nutmeg is the seed of the fruit, and mace is the thin covering over this seed. The fruit is about as large as a peach. When ripe, it opens and shows the little nut. The tree is a native of the islands of Asia, and, also, grows in tropical America. They bear fruit for seventy or eighty years, having ripe upon them at all seasons One in Jamaica has over 4,000 nutmegs on it yearly. The Dutch used to have all the nutmeg trade, as they owned the Banda islands, and conquered all the other traders, and destroyed the trees. To keep the price up, they once burned three piles of nutmegs, each of which was as large as a church. Nature did not sympathize with such meanness. The nutmeg pigeon, found in all the Indian islands, did for the world what the Dutch had determined should not be done—carried these nuts, which are their food, into all the surrounding countries, and trees grew again, and the world has the benefit.

Some years ago a button found on the scene of a murder led to the detection of a murderer, and a pin has been of similar service lately in Paris. A laundress, having received a handsome legacy, was foolish enough to mention it to an acquaintance in the same house where she had placed the money. A few days later the other announced that she, too, had quite unexpectedly come into some money, and invited the laundress to breakfast. The latter came, and the entertainment passed off pleasantly, but strange to say, she got dreadfully sleepy after it, and only really woke up when her hostess had made her an extra strong cup of coffee. Upon returning to her room she discovered that she had been robbed. The police came and searched her bureau, when there tumbled out of some linen a pin which she immediately recognized as one which she had seen in her hostess' fichu on the day of the breakfast. A search in the latter's room revealed the thief, who had drugged the laundress at breakfast, slipped out of the room with her keys, robbed her and put the keys back in her pocket.

Those writers who think that thought should spring into the mind fully armed and equipped, and who consider it beneath their dignity to correct and erase, should see Tennyson at work writing and rewriting his poems over and over again, or rather printing them, for the poet laureate rarely uses a pen. He keeps a printing press, and has his poems set in type, line by line. Imagine what a nice, leisurely time the poet must have strolling about on his lawn smoking cigars, with that eccentric Texan hat of his slouched over his moody brow composing a verse a day! Perhaps if some of our prolific American poets would try the verse-a-day plan they might get something like the prices the poet laureate receives. Let them try it a day or two, anyway.

A leader of the National party think that in managing our public affairs "we might obtain much help from the spirit world" and that "it would be wise to put the management of the Indians wholly under the direction of the spirits." Nothing would please the Indians more, even if they have to pay five dollars a gallon for the spirits.

Metal Money.

The first forms which could be called by the name of money, says the *Popular Science Monthly*, were ingots in various shapes stamped or sealed with the seal of the ruler as a certificate of the quality and weight of the piece, no attempt being made so to fashion the coin as to guard against alteration in weight.—Some of the early pieces were stamped on but one side, and it was only by very gradual steps that the handsome circular which we know as coins were evolved. But these are still defined by Jevens as ingots of which the weight and fineness are certified by the integrity of the designs impressed upon the surface of the metal. The stamping of the bits of metal has always been assumed as a prerogative of the ruler, and to supply the people with coin has come to be considered a function of government. It will be well to bear the above definition of coin in mind; for the fashioning, stamping, and certification, have often caused a very important fact to be lost sight of, which is, that throughout these changes the metals continue to be commodities and nothing more. The stamp works no alteration in the metal, any more than does the label on a bolt of muslin, showing the width and the number of yards, convert it into something other than cotton cloth. The conversion of the unfashioned metal into coin in no way affects the principle of exchanges, and its transfer is barter just as much as it was in the beginning.

"HOLD THE FORT."—Everybody sings "Hold the Fort," but few know the origin of the remarkable song. The Chicago *Inter Ocean* gives the following: "There was a fort at Altoona, about 18 miles from Kennesaw Mountain, which was being badly pressed by the Confederate forces. When Sherman reached Kennesaw he signaled to Altoona, which was commanded by General Corse, 'Hold the Fort, for I am coming.' The message was seen and read by the men at the fort, and as a reply was necessary, General Corse ordered the young officer standing near to send the reply—'Wave the answer back to Sherman that we hold the fort.' It was easy to order, but while rebel bullets were flying thick and fast several members of the signal corps declined to signal, until General Corse was impatient, when the young officer referred to above grasped the flag, mounted the dangerous post and 'waved the answer back to Sherman.' That young man was James W. McKenzie, of Hampton, Iowa, and the war records mention the brave and cool act for which he was promoted."

If there is any one thing more than another that convinces a man of the progress of education in our common schools, and the sound practical instruction communicated to the rising generation, it is to have his daughter bring him a problem something like this: If eight oxen consume twelve and one eighth times the amount of food in five days required by one-sixth of the square root of sixteen sheep at a cost of 29,78 cents, how many oxen will be required to consume the amount required by one-half the cube root of an equal number of sheep in forty-two days time at a cost of 4.16 of that amount, and triumphantly point to the answer at the foot of a whole slate full of figures as being 32,187,369 oxen—x.

Set a Good Example.

The first, and perhaps the most potent influence determining the career of our children, is our own conduct. We have little reason, and no right, to expect them to act better than we give them an example. If we are hasty, violent, unreasonable, intemperate, or profane in our speech, careless in our habits, impure in our lives, we have every reason to expect that our children will grow up to be like us. Nay, we may properly fear that they will make bad haste to distance us on the evil road; for experience and the terror of the law, and a wholesome restraint from society, keep us somewhat in check. To the child all these things are wanting. Think of the effect on a boy, of seeing his father in a rough-and-tumble fight, or of hearing him threaten to kill a neighbor, perhaps a member of his own family! This is the kind of education too many children have who are growing up to be your fellow-citizens and mine, and whom some reckless demagogue will try to persuade ought to be at the top of society. Think of the influence on a child of habitual coarseness, harshness and the want of self-control in those who stand to him as his types of men and women! Let it never pass out of our thought; let it cling to us and haunt us day by day, that our children are deriving a large and formative part of their education from our daily manners, and especially from the tone of our daily life. The spirit that rules us creates the spirit that rules them.—*Rev. I. M. Atwood.*

WAS HE A GENTLEMAN?—There is one smoker in the world who has got even with a complaining woman. He was traveling in Italy and had taken a seat in a railway carriage, when, perceiving that there was a lady in front of him, he immediately threw away the cigar which he had been smoking. But this did not satisfy the lady, who at once referred to the impropriety of smoking at all, as the smell of the smoke remained on the clothes and was very disagreeable. "I will not annoy you, my dear lady," said the gentleman, and he jumped out of the carriage and entered another in haste. It was a second-class carriage, but he had not time to change as the train had started. At his side he had a countryman who had walked evidently through not very perfumed fields. His clothes were in a sad plight of filth; he scented the whole compartments.—Happy thought! "Have you ever traveled first class?" said the gentleman to the countryman. "Never, sir," answered the man. "Then we will change tickets," said the gentleman, "at the next station I will show you the carriage." And, truly, he had the satisfaction of seeing the countryman enter the carriage he had left.

THE CHRONICLE.

BODIE, DECEMBER 28, 1878.

RAMPANT.—Some of the Judges in this State are throwing themselves back on their dignity to an extent that the people will not submit to. Although clothed with a little brief authority their official acts are subject to criticism, and if they cannot face the music they should step down and out and make room for better men. A. C. Brown, County Judge of Amador, recently fined Webb, of the *Amador Ledger*, for criticising the doings of his Court away back in September last. This modest Judge entered the complaint himself against Webb for a contempt of his own Court, had him arrested and tried him, refusing to allow Webb to show justification, and inflicted a heavy fine on him, from which he has appealed to the Supreme Court. And now comes Judge Fawcett, who has been drawing double pay from the State Treasury as a District Judge and a member of the Constitutional Convention, and imposes a fine of $250 on Hon. Creed Haymond and his two associates in the More murder trial at San Buenaventura for wishing to file, on behalf of their client, on trial for his life, their objections to having the case tried before the said Judge, he being a member of the Constitutional Convention and therefore ineligible. This was a contempt of Court in the eyes of the Judge, hence the fines. If this system is to find favor where is the freedom we boast so much of? It is such exhibitions of the "big head" and usurpations that teaches the people to look upon the judiciary with contempt.

Aps, the Indian murderer, on being asked by Judge McArthur, at Pendleton, Oregon, before sentence of death was pronounced, if he had anything to say, replied: "You talk to me now only as dirt; my body is as dirt now to you; but you should talk with the spirit that goes from my body. That's all."

The barn of R. J. Weeks, near Redwood City, and the largest in the county, was destroyed by fire on Monday, with all of last season's crop of hay and grain, wagons, horses, and farming tools, entailing a loss of $25,000, with no insurance.

THE MEDICAL LAW.

The Legislature of 1876 passed an act to regulate the practice of medicine in the State of California, and the last Legislature amended it in many particulars, but not in a manner to make it any the less binding on the medical practitioner who is worthy of the confidence of his fellow men. It is well known that this law was demanded to protect the people against "quack" doctors—with which San Francisco, Sacramento, and all our large towns, and the State generally, have been overrun. Many valuable lives have been cruelly sacrificed through the nefarious practices of these charlatans, and the enactment of the above mentioned law has been productive of good in many of the counties in the State, and its provisions should be enforced and the health and lives of the people protected as far as possible.

The law requires that every person wishing to practice as a physician or surgeon in the State of California shall forward or present to one of the Board of Examiners mentioned in the Act, his diploma, with an affidavit that it lawfully belongs to him, and that his name appears therein; and that it was procured in the regular course of medical instruction, and without fraud or misrepresentation, etc. Upon examination if the Board feel satisfied that everything is legal and correct a certificate is given, allowing the applicant to follow his profession in this State upon filing said certificate with the Clerk of the county in which he resides. The law is plain and we cannot understand why any graduate of a medical college in good standing should object to comply with its provisions. There have been many prosecutions instituted in different parts of the State and many of the so-called "doctors" have dropped out of practice. A case was recently tried in this town, resulting in a disagreement of the jury, the defendant holding that he had filed his diploma—not the certificate of the Board of Examiners—with the County Clerk and was therefore not guilty. It is very plain that no person can legally practice medicine or surgery in this State without complying with the State medical law, which has been declared constitutional by the Supreme Court; and in view of these facts, and having no prejudice in the matter, having no particular acquaintance with the physicians of Bodie, we submit that every physician owes it to himself and the community in which he lives, to strictly observe and respect the laws, particularly where his professional reputation is involved. To a community situated as we are, far distant from the large cities from which eminent physicians or surgeons could be summoned at a short notice, it is a matter of very great moment for us to know into whose keeping we are to place our lives in the event of a serious illness. We surely would not wish to fall into the hands of a shopkeeper who might think it more profitable to turn "doctor;" nor does the hard-worked miner, who meets with an accident, wish to fall into the hands of an ex-carpenter who may see fit to call himself a "surgeon." It is to protect the people from such imposters that the medical law was enacted, and if it is not lived up to the people will be the sufferers. We hope the physician who has been prosecuted under this law will see that it is to his interest to forward his diploma to one of the Boards for examination. We have no feeling in this matter other than that we believe the public have a right to know who among us are truly physicians and surgeons.

PROBATE NOTICE.

IN THE PROBATE COURT OF THE COUNty of Mono, State of California.

In the matter of the Estate of GEORGE W. HIGHTOWER, Deceased.

Order appointing time and place for hearing application to sell personal and real property and directing Notice to be given.

On reading and filing the petition of M. J. Hightower and John A. Creaser, Administrators of the Estate of Geo. W. Hightower, Deceased, praying for an order to sell all the real and personal property belonging to said Estate, now unsold; said property consisting of two lots in the Town of Benton, Mono county, California with the improvements thereon, and also the interest of said Estate in one saw-mill, situated in said Mono County, and one lot of work oxen, trucks, wagons, yokes and chains; and that such order direct said sale to be made at private or public sale:

It is ordered: That all persons interested in said estate appear before the said Probate Court of the said County of Mono, State of California, at the Court Room of said Court, at the Court House at Bridgeport, in said Mono county, on the Twenty-eighth day of January, A. D. 1879, at 10 o'clock A. M., then and there to show cause why such order should not be made.

And it is further ordered: That a copy of this order be published for four (4) successive weeks in the Mono ALPINE CHRONICLE, a newspaper published in said Mono county, previous to said Twenty-eighth day of January, A. D. 1879. Dated December 23d 1878.

SUMMONS.

IN THE DISTRICT COURT OF THE SIXteenth Judicial District of the State of California, in and for the County of Mono.

SOPHIA T. BERRY, Plaintiff, vs. HORACE W. BERRY, Defendant.

Action brought in the District Court of the Sixteenth Judicial District of the State of California, in and for the County of Mono, and the Complaint filed in said County of Mono in the office of the Clerk of said District Court.

The People of the State of California send Greeting to HORACE W. BERRY, Defendant.

You are hereby required to appear in an action brought against you by the above named Plaintiff in the District Court of the Sixteenth Judicial District of the State of California, in and for the County of Mono, and to answer the complaint filed therein, within ten days, exclusive of the day of service, after the service on you of this summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise within 40 days—or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a Decree of this Court dissolving the Bonds of Matrimony now existing between said Plaintiff and Defendant, upon the ground set forth in the Complaint on file in this action, and for general relief.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said Plaintiff will apply to the Court for the relief demanded in said complaint,

Given under my hand and the Seal of the District Court of the Sixteenth Judicial District of the State of California, in and for the County of Mono, this Twenty-sixth day of November, in the year of our Lord One thousand eight hundred and seventy-eight.

THE CHRONICLE.

BODIE, DECEMBER 28, 1878.

LOCAL AGENTS.—W. H. Ellis is authorized to receive subscriptions and advertisements for the CHRONICLE.
D. R. Peeler, at Bryant's store, Bridgeport.
Joseph Carney, Coleville.

LOCAL INTELLIGENCE.

THE CHRONICLE Office is on Mills street, opposite the South Standard Hoisting Works.

JOB PRINTING.—Job printing of the finest descriptions will be furnished at this office at Sacramento prices.

"THIN!"—It is rather a slim excuse for slow time—from four to six hours over shedule time, that the contractor gives for mail carriage between Bodie and Carson. He wants an increase of pay, and to accomplish this he adopts the novel plan of warming up the Government in his behalf, by slowing down and freezing passengers. If the contractor felt disposed to make a contract on his own terms, he ought not be allowed to discommode the business and traveling public to secure better terms from the postal authorities. In these days of healthy competition it might be well to strictly enforce the contracts, and, if necessary, give the Sonora Stage Company and Mr. Allman an opportunity to compete. The public interests should be consulted in preference to private.

THAT CHARGE.—There has been much grumbling among our citizens in regard to the charge for admission to see the late Christmas tree. Those of our citizens who were called upon subscribed liberally toward making it a joyous festival for the little ones in our midst—for Christmas tree festivals are always gotten up for the pleasure of the children, and not for the benefit of grown folks; but instead of its being a free entertainment a charge of fifty cents a piece was made, in consequence of which many families stayed at home, not feeling able, or disposed to pay the fee. This is the first time we ever knew of such a charge to be made on such occasions, and we have attended scores of such.

BOARD OF SUPERVISORS.—The Board of Supervisors held an adjourned session on Thursday last. Proposals were received from Harris & Elliott, to publish the delinquent tax sales list for the fiscal year 1878-79, for $4 per square. Proposals were received from R. M. & A. C. Folger to publish the list for the sum of $150. The contract was awarded to R. M. & A. C. Folger and the bond fixed at $500. The Board then adjourned until this morning for the purpose of listing names from the assessment roll to be deposited in the jury box.

BRACING!—What a fine bracing morning that of Christmas was to those who had to get up and kindle a fire! Didn't your Junior wish he had a wife to attend to that household duty and let him know when the room was warm enough for him to get up! The thermometer stood at 20 degrees below zero at 7 A. M. How is this for—ow?

THE CHRISTMAS TREE.—The Christmas Tree party on Christmas Eve was well attended and passed off pleasantly. The trees were laden with presents for both young and old, many of the gifts being very valuable. After the trees were denuded dancing was inaugurated and continued till morning.

DELINQUENT TAX LIST.—The Board of Supervisors on Thursday last awarded the publication of Delinquent Tax Sales to the MONO ALPINE CHRONICLE for the sum of $150—a saving to the taxpayers of over $500 on the cost of publication last February.

SNOW.—On Tuesday a flurry of snow visited these alpine hights, but there was not a sufficient amount of the "beautiful" to lay the dust. To-day it looks a little threatening, and we may have another light fall of snow before midnight.

NEW STAGE LINE.—John Allman's stages commence running between Bodie and Virginia City to-day, leaving here at four o'clock this afternoon. The time of departure from each terminus is Tuesdays, Thursdays and Saturdays.

NO RIGHT TO LEASE.—The Board of Supervisors having concluded that it has no power to lease the county roads, action in that direction has been suspended.

COUNTY COURT.—The County Court Hon. H. I. Leavitt, Judge, presiding, will commence its January Term on the 6th of January next. A Grand Jury will probably be called.

ARRESTS.—There were several arrests week—two of the offenders were fined by Justice Peterson respectively $40 and $60 each, for drawing deadly weapons and threatening to shoot.

PERSONAL.—We were favored yesterday by a visit from Supervisor Dick. On Monday last Judge J. G. McClinton departed for Latrobe, where he intends to spend the Winter.

OUR MINES.

STANDARD.—Latest official report is that the crosscut east from the main shaft is in 85 feet; progress for the week 22 feet. At a point 70 feet from shaft a ledge was cut which is 3 feet wide. The south drift from this crosscut has been advanced during the week 13 feet, total length, 63 feet; ledge 4 feet wide. The east crosscut being run on the 300-foot level south of incline is in 112 feet.—Raise north of incline on same level is up 95 feet. The ledge is 3 feet wide and looks well. The stopes continue to look well, and yield the usual quantity of ore. Mill is running steadily.

CONSOLIDATED PACIFIC.—The south drift in No. 1 is in 30 feet and ore improving. Drifting for stations to take out ore. Commenced sinking this week in No. 2; down 5 feet. Main shaft down 159 feet; progress this week, 12 feet. Work progressing satisfactorily.

MONO.—Shaft down 370 feet; bottom shows seams of quartz and much clay, and works well. The crosscut is in 130 feet; the face shows some small streaks of low grade ore, lying very regular, and dipping to the east. Indications are favorable for nearing the vein.—Everything is working in excellent order, and a six months supply of timbers, lumber and fuel is on hand.

BOOKER.—Shaft down 335 feet; rock hard and little water.

UNIVERSITY.—Shaft down about 143 feet; drift in 145 feet. Crosscut No. 1 is in 8 feet, and No. 2 6 feet. Good ledge which assays well, and the prospects are good. On Monday a whim will be erected. H. E. Ashley has been appointed Superintendent, vice Mr. Holmes, resigned.

JUPITER.—This mine is east of, and joining the Bodie. The shaft is down 136 feet, and is two compartment, 4 x 4½. At 126 feet a fine looking vein of three feet, with promising assays, indicating a valuable mine, was struck.

TIOGA.—Shaft down 360 feet in favorable formation; vein nice looking, 13 inches wide in bottom, with fair prospects. West crosscut in 38 feet; cut a 6 inch seam of quartz, low assay. East crosscut in 45 feet; also have a seam in this cut, with low assays. The hoisting works are in good condition, and everything goes well.

SOUTH BODIE.—Shaft, double, down 381 feet. At 351 feet past ledge; drifted 10 feet, then resumed sinking to crosscut at 500 feet. Progress this week 15 feet, the rock being hard.

CALIFORNIA.—Shaft down 140 feet; east drift in 36 feet; west, 24 feet.

BULWER.—Ledge in south drift is 2½ feet wide and continues to look well. The Stonewall stopes also present their usual good appearance. Have shipped to date 405 tons of ore of good quality to the Bodie mill.

BULLION SHIPMENTS.—Since April 28, 1877, to this date, the Standard mine has shipped to San Francisco 101 gold bars, valued at $1,717,646 91. From July 20, 1878 to date, the Bodie mine has shipped 76 gold bars, vauled at $1,042,270 82. Total from the two great mines of Bodie, $2,759,917 73.

NEW LOCATIONS.—The following locations have been recorded by Judge Goodson:

Spring—By Harry Sullivan and F. M. Jones, situated northeast from the Syndicate Mill about one mile.

Charlie Gould—By E. Bwegesson, E. Erickson, Wm. Kelly and Jennie F. Gould, situated on the westerly slope of Bodie Hill, about 30 feet in a westerly direction from the dump of the Nova Zembla claim, and about 600 feet in a southwesterly direction from the Josephine dump, containing 1500 feet.

Baxter—By Chas. E. A. Baxter and H. G. Tobler, running 750 feet north and 750 feet south from a certain monument situated about half way between the Bodie hoisting works and Dudley hoisting works.

Mill Site—By L. D. Tilton, situated one quarter of a mile below the south extension of the Sigourney mine.

Placer Claim——Paige, 200x1000 feet, situated northeast from the Dudley mine, and bounded on the southwest by the Sarginson placer claim.

Confidence—By John Flanagan, relocation of the Empress claim, containing 1500 feet.

Tunnel Site—By M. Meadows, near the Sigourney mine, 3,000 feet in length in a northwesterly direction.

Maggie Star—By M. Meadows, discovered in tunnel site and running 750 feet in each direction therefrom.

North Pacific—By C. Werner and Peter Gamble, on Bodie Hill, running n e and s w, containing 1,500 feet.

Valley View—By Al Baker, John Wilson and James McDonald, 1500 feet

Bravin—By Richard D Bravin, discovered in the shaft of the Jupiter mine, 126 feet from the surface, running north and south, 1500 feet.

Kohinoor—By G. S. Johnston, relocation, 1500 feet.

Coal Mine—By Julius Dreyfus, about one-half mile northwest of Bodie, in a certain canyon, 160 acres.

Billings Mill Site—By L. D. Billings, 50 acres.

NEW COMPANIES.—The following new companies have been incorporated to mine in the Bodie District:

Bechtel Consolidated Mining Company. Capital stock, $10,000,000, in 100,000 shares. Trustees, C. A. Burgess, W. F. Herrin, T. B. McCauley, F. T. Coopor and H. M. DeHart.

BALL AT BRIDGEPORT.—Our Bridgeport friends will give a grand ball at that place on Tuesday evening next for the benefit of the public school. Those inclined to dance the Old Year out and the New Year in should attend it.

DISTRICT RECORDER.—The annual election for Recorder of Bodie Mining District will be held at Recorder Goodson's office on Monday evening next.—Judge Goodson is a candidate for re-election.

HAPPY NEW YEAR.—We wish our readers and friends a Happy New Year, and hope that they may have lots of business and heaps of money.

THE CHRONICLE.

BODIE, DECEMBER 28, 1878.

HOUSEHOLD.

The celebrated Dr. Field, during the ravages of diptheria in England a few years since, used the following remedy: A teaspoonful of flower of brimstone in a wineglass of water, stirred with the finger rather than a spoon, as sulphur does not readily amalgamate with the water; when well mixed use as a gargle and swallow. In extreme cases, where the fungus was too nearly closed to allow gargling, he blew the sulphur into the throat through a quill, and after the fungus had shrunk, then gargled. If the patient cannot gargle, sprinkle the flower of brimstone on a live coal and let him inhale the fumes. Brimstone kills every species of fungus in man, beast and plant. Dr. Field never lost a patient from diphtheria during all his immense practice.

When writing has faded, if the paper is moistened with water and then brushed over with a solution of sulph-hydric-ammonia it will be restored. This article can be obtained of any druggist.

Loaf Cake—Two cups light dough, one cup sugar, half cup butter, two eggs, half teaspoonful soda, one cup raisins, and spices to suit your taste.

The Countess de Bassanville tells the ladies how to preserve their beauty. "When you are past twenty-five, never let five or six hours pass without closing your eyes for a short time—say ten minutes; not necessarily to sleep, but to rest the muscles of the eye." The muscles in repose, lose their tendency to nervous contraction, which results in wrinkles.

The Duchess of Edinburgh is very gracious to the Americans she meets in society, and will converse with them for hours in French or German. She rarely uses English, though she speaks it to perfection. Her preference for any other language arises, the gossips say, from her dislike for everything English.

When a young man "enters journalism" he weaves a spider's web of words around the fly of an idea. In time, he learns to secure the fly without a web, and when he holds it up for inspection everybody can see just what it is. A good idea in a sea of words is like Venus with a linen duster on, buttoned to the chin.

Among all the causes of a candidate's defeat, that assigned by Congressman Waddell, of North Carolina, is the most unique—sweet potatoes. The voters soured on him in their zeal to harvest their saccharine tubers.

A Missouri editor's wife has been seven months making a feather cloak, which is now for sale at St. Louis for $500. It contains about 38,509 feathers, mostly quail, prairie chickens and wild duck.

It takes the average woman three minutes to buy a postage stamp and lick it on, while the average man does it in fifty-seven seconds. Please think of these things.

Good advice is like brown bread. It is very nourishing, but not always the most welcome kind of food.

THE CINCINNATI $1 WEEKLY STAR
Is the largest and best DOLLAR WEEKLY PAPER printed in the country.
It is the paper that meets the wants of the farm and the fireside more fully than any other, as will be seen by a careful examination of the following facts, and a comparison of the paper with any other of the city weeklies:
The STAR is handsomely printed on pure white paper from clear cut type, that makes it easily read, even by a poor light. *Its clear and open print is a joy to old or weak eyes.*
The STAR is free from political bias, and gives all the news with fairness and honesty, so as to enable its readers to form a correct judgment on whatever is passing; and it discusses questions without prejudice, but always in the interest of the producing classes.
It is in **no sense sectional or contracted** in its news or opinions, and can be read with the same real pleasure and interest from Texas to Maine, and from California to Delaware. Its stories are thrilling; its news **late, comprehensive,** and **correct;** its **market reports reliable;** and all its departments are fully up to the requirements of first-class journalism.
We give **no chromos, hand-books,** or **almanacs** with the STAR, believing that the greatest inducement we can offer is to make a **FIRST-CLASS NEWSPAPER,** putting the money which such things would cost to the **better use of improving the paper,** and leaving the chromo business in the hands of picture dealers, where it properly belongs.
We, however, fully appreciate the **energetic work** done by club agents, and reward them liberally, as will be seen by reference to our "**list of premium inducements to agents,**" which is sent on application. Agents' outfit free of charge. Get up a good club for the STAR.

The White
—IS—

THE EASIEST SELLING,
THE BEST SATISFYING
Sewing Machine
Its introduction and World-renowned reputation was the death-blow to high-priced machines.
THERE ARE NO SECOND-HAND WHITE MACHINES IN THE MARKET.
This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first-class machines which are offered so cheap now-a-days are those that have been repossessed (that is, taken back from customers after use) and rebuilt and put upon the market as new.
THE WHITE IS THE PEER OF ANY SEWING MACHINE NOW UPON THE MARKET.
IT IS MUCH LARGER THAN THE FAMILY MACHINES OF THE SINGER, HOWE AND WEED MAKE.
IT COSTS MORE TO MANUFACTURE THAN EITHER OF THE AFORESAID MACHINES.
ITS CONSTRUCTION IS SIMPLE, POSITIVE AND DURABLE.
ITS WORKMANSHIP IS UNSURPASSED.
Do not Buy any other before trying the WHITE.
Prices and Terms Made Satisfactory.

BEATTY

PIANO OR ORGAN SENT FREE! Any person who will hand and forward me a list of the names of reliable persons of their acquaintance who wish to procure an instrument, either Piano or Organ, I will use my best endeavors to sell them one, and for every Piano I succeed in selling to their list within one year, I will credit them with $10, and for every Organ $5, to be applied on payment of either a Piano or Organ; and when it amounts to a sum sufficient to pay for any instrument, selected at the lowest wholesale price, I will immediately ship the instrument, free, or after any amount is credited the balance may be paid me in cash and I will then ship them the instrument. They need not be known in the matter, and will be doing their friends a real service, as I shall make special offers to them, selling a superior instrument for from one-half to two-thirds what is ordinarily asked by agents. Please send me a list at once, and after you have made inquiry, you can add to it. Illustrated Newspaper sent free. Address DANIEL F. BEATTY, Washington, New Jersey, United States of America.

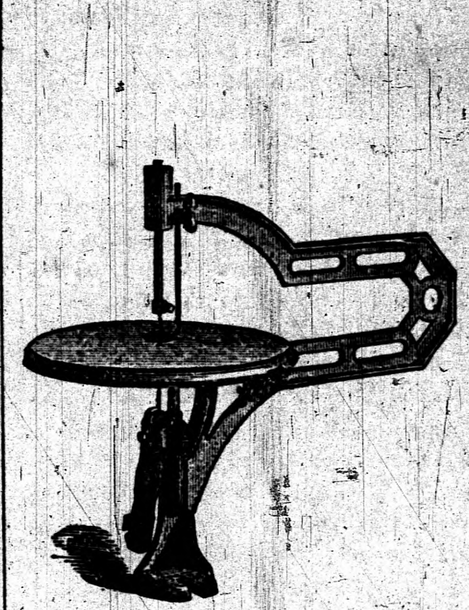

BEATTY PIANO AND ORGAN.
There is no manufacturer of Pianos and Organs in this or any other country who has received as many unsolicited indorsements as has Mr. Beatty. From every State and Territory comes the same verdict: "They are the best in the world." CAUTION.—My success has brought into existence hundreds of imitators, some of whom have formerly been in my employ, whose want of experience is evident to those who are capable of judging. Illustrated Advertiser free. Address DANIEL F. BEATTY, Washington, New Jersey, U. S. America.

DR. SPINNEY
No. 11 Kearny Street,
Treats all Chronic and Special Diseases.

YOUNG MEN
WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. DR. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
OFFICE HOURS—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
